Objectives

Workshop focusing on training researchers and students in phylogeny and the application of phylogenetic methods in taxonomy, systematics and evolutionary studies. The major objective for the workshop is to provide hands on experience in the use of databases available on the world-wide-web and the different software, both commercial and free software, currently available for alignment of sequences, primer designs, molecular taxonomy, molecular genetic and epidemiology and evolution. The workshop caters graduates, postgraduates and researchers that have a basic background in the fields.

Organized by
Department of Veterinary Pathobiology
Faculty of Veterinary Medicine and Animal Science
University of Peradeniya
Sri Lanka

Foreign Resource Persons

Dr. David Blair (BSc, PhD)
Adjunct Professor
College of Marine and Environmental Sciences,
James Cook University,
Townsville, Queensland 4811,
Australia

Dr. Banchob Sripa (MD, PhD)
Professor & Head, Tropical Disease Research Center
Chair, Tropical Medicine Graduate Program (International Program)
Department of Pathology, Faculty of Medicine
KhonKaen University, KhonKaen 40002
THAILAND

Dr. Thanh Hoa Le (DVM, MSc, PhD)
Professor in Life Sciences
Principal Research Fellow, Immunology Department,
Institute of Biotechnology (IBT),
Vietnam Academy of Science and Technology (VAST),
18. Hoang Quoc Viet Rd. CauGiay district, Hanoi,
Vietnam

Course Fees

Students - Rs. 5000/-
Others - Rs. 7500/-

(Included Food and Learning Materials)
