

Dear Students,

Animal Production and Health (AP&H) Research Projects – Batch 2015/2016

Please note that the deadline for submission of details of your AP&H research projects to the VMEU is 5th March, 2021. Please follow these self-explanatory guidelines.

- (1) Collect the following documents from the VMEU office (alternatively, make a printout from the attached softcopies and use them)
 - a) Research Project Commitment Form - Batch 2015/16
 - b) Research Project Titles - Batch 2015/16
- (2) Study the 'Research Project Titles' thoroughly and choose a topic you would like to further pursue based on your research interests.
- (3) Contact the relevant supervisor or the Head of the respective Department who will direct you to the relevant supervisor
 - a) If the supervisor agrees to conduct the research project with you, complete the 'Research Project Commitment Form - Batch 2015/16' and handover to the VMEU office **before 4pm, Friday, 5th March 2021**
- (4) If the supervisor has already assigned the research project of your first choice to another student, meet the supervisor in charge of the research project of your second choice and follow the steps detailed in (3) above.

Please note that any supervisor can supervise a maximum of three students from your batch, therefore, supervisors may not be able to assign you the projects of your first choice, if students have been already assigned to them.

I understand that some students have already discussed their research projects with supervisors. However, kindly contact the relevant supervisors again to ensure that he/she can still accommodate you.

Thanking you,
Sincerely,

Chanaka Rabel PhD (Illinois), BVSc (Peradeniya)
Chairperson, VMEU

Senior Lecturer,
Department of Farm Animal Production and Health,
Faculty of Veterinary Medicine and Animal Science
University of Peradeniya
